

SALES/USE TAX TRAINING AND EDUCATION

DMA provides customized sales/use tax training courses congruent with your specific business operations. We conduct pre-training consultations to assist in understanding your business operations, discuss your expectations, and determine the tax knowledge of our audience. We then develop a training seminar that is tailored to your organization, industry, and tax situations in an easy to understand way. Our tax professionals will also provide each participant with training materials and reference guides to assist in your daily tax compliance. As an added benefit, we serve as an on-going resource to answer your tax questions after the training.

DMA's Sales and Use Tax Training and Education services are offered as a stand-alone solution to your tax compliance needs or in conjunction with DMA's other sales/use tax compliance services. Regardless of the training desired, we take the time to learn your expectations and business practices to ensure you and your staff are equipped to handle your tax responsibility with confidence.

Customized Training

Your personnel experience practical training relevant to their daily work.

Experienced Professionals
