

TAX TECHNOLOGY DIVISION

DMA's Tax Technology Division partners with our Income, Sales/Use and Property Tax Divisions to assist our clients in maximizing technology and process opportunities in the administration of corporate taxation.

Tax leaders are faced with an increasingly difficult task in managing corporate taxation. Mergers, acquisitions, regulatory and system complexities all add to the challenge of procuring the data and information necessary for accurate tax planning and compliance. DMA's Tax Technology Division focuses on providing solutions to eliminate common tax-related issues occurring within most financial software packages and tax processes. We provide services and productivity tools that assist clients with simplifying and maximizing the benefits of transactional tax automation.

To ensure maximized results from our services and productivity tools, DMA is proud to provide our clients with exceptional expertise in the tax and technology arenas. Our professionals possess unparalleled experience with Thomson Reuters (Sabrix), ADP (Taxware), Vertex, SAP and Oracle.

DMA provides efficient and effective solutions to a client's business needs. Our services are strategic and customized, allowing us to deliver top-notch solutions that will support tax leaders and organizations in their quest for excellence.
